

I am writing this to express what the radio station K-LOVE means to me. This station is listener supported by residents in my area. The station gives a positive message to our community. If K-LOVE were to be displaced by an Low Power FM station, it would greatly effect my drive to and from work. I listen to K-LOVE because of their positive message and music. K-LOVE has grown in this area significantly. It has provided an alternative that we can connect to. Thank you for taking the time to read this.
